

UNIVENTURE INDUSTRIES PVT LTD

Oil Lubricant Intermediate, Polymeric & Speciality Chemicals

DESCRIPTION:

Ashless Dispersant UNOL A10XX is polyisobutene succinimide with excellent dispersancy and thermal stability. It can meet the requirement of low temperature application and thermal oxidation ability of high functional oil. It can be used for blending high grade internal combustion engine oil. It provides high temperature diesel engine performance characteristics. Additionally it decreases the deposition of sediments of lacquer and carbon on high temperature parts of engine .
